

For this homework you will write a response and upload your pdf result. Responses can be handwritten or typed but you will need to make sure to run a pdf conversion on either. For hand written submissions, you will get the best result by using black ink on white paper and placing the sheet on a flat surface before using your phone to take a picture. From there you should be able to convert to pdf with an app if it is not built in already. For typed responses using Microsoft Word (all students get this for free via [IS](#)) you can simply do a **save as** and then pick pdf. [Moodle](#) allows TAs and your instructor to view the pdf rendering without downloading which is an efficient way to grade and provide feedback. Each response should be a paragraph at minimum (3-5 sentences).

[Read these three online articles]

[1 25pts] How exactly are the professions of script writing, musical making, and visual art being challenged today by what the industry terms AI? How does the AI generate these things?

[2 25pts] Take a position after reading the articles and side either with the writers/musicians/artist or the technology companies that promise to make infinite creative work for pennies on the dollar.

[3 25pts] What ethical issues are at work here?

[4 25pts] What about legal issues, are there any? For example the AI companies claim they can use any online material because they claim it is [fair use](#). Do you agree? (click the hyperlink to read about what **fair use** is defined as)
