CONNECTICUT COLLEGE   COM110: HW1

For this homework you will write a response and upload your pdf result. Responses can be handwritten or typed but you will need to make sure to run a pdf conversion on either. For hand written you will get the best/easiest result by using black ink on white paper and placing the sheet on a flat surface before using your phone to take a picture. From there you should be able to convert to pdf with an app if it is not built in already. For typed responses using Microsoft Word (all students get this for free via IS) you can simply do a *save as* and then pick pdf. Moodle allows TAs and your instructor to view the pdf rendering without downloading which is an efficient way to grade and provide feedback. Each response should be one well thought paragraph (3-5 sentences).

[1 20pts] Introduce yourself and your connection to computing. You can go **BIG** or go *specific* such as how do you think about computing and yourself as a **CAREER** or go *specific* and discuss your connections to computing in everyday life such as playing a specific video game (which you understand is a computer program), etc. If you use the above examples you will need to provide more details (5-7 sentences instead of 3-5) !

[2 20 pts] From your reading of the syllabus course description, what are you most interesting in exploring in this course and why?

[3 20 pts] From your reading of the syllabus course objectives, what are you most interested in mastering?

[4 20 pts] From your current perspective, what area of computing or technology excites you in a positive way?

[5 20 pts] From your current perspective, what area of computing is most frightening or anxiety inducing?
